Ryan Christian Deniega

Web Developer

ryan.deniega13@gmail.com   (63) 9217323157   Tagum, Philippines   [Portfolio](#)

As a Computer Science student with a passion for web development, I specialize in building modern web applications using React, Next.js, and TypeScript. I have developed multiple full-stack projects, implementing best practices in responsive design and user experience while continuously learning new technologies.

LEARNING JOURNEY

Self-Directed Web Development

2023 - Present

• Built GadgetTrack, a full-stack POS system using Next.js, TypeScript, and Supabase for inventory management

• Implemented authentication systems and database management with Supabase in multiple projects

• Developed responsive and accessible user interfaces using Tailwind CSS and Framer Motion

• Practiced version control and project management using Git and GitHub

PROJECTS

GadgetTrack - Creator

• Developed a comprehensive POS system for electronics retail using Next.js and TypeScript
• Implemented real-time inventory tracking and sales management features
• Utilized Supabase for backend services including authentication and database management

EDUCATION

University of Mindanao - Tagum - B.S., Computer Science

2022 – Present   Tagum,PH

Relevant courses
